Alghanim Transportation Logistics & Solutions

**THE NEW NAME FOR TRANSPORT AND LOGISTICS SOLUTIONS  
IN THE MIDDLE EAST**

[atlas4logistics.com](http://atlas4logistics.com)

# About **ATLAS**

ATLAS (Alghanim Transportation Logistics and Solutions) is the new name for transport and logistics management in the Middle East.

ATLAS is a comprehensive supply chain and logistics solutions company, with over 50 years in the industry. Part of Alghanim Industries, and formerly operating as Alghanim Freight, the newly re-branded business has expanded its portfolio of services to include logistics solutions, project management, warehousing and storage, while continuing to deliver comprehensive freight forwarding and relocation services.

With a staff of over 550 highly-trained and motivated employees, a management team with over 100 years of combined logistics experience, and an extensive network of international partners, we offer our customers local strength with a global reach. We use state-of-the-art equipment and the latest technology-based systems to provide value-oriented, end-to-end solutions for commercial as well as individual customers.

For business customers, ATLAS can meet any commercial

shipping and logistics requirement – no project is too big. We offer a suite of smart and innovative multi-modal solutions, including:

- ▶ Overland transportation
- ▶ Freight forwarding services; Export/Import - air and sea
- ▶ Customs clearance and brokerage
- ▶ Project management and logistics
- ▶ Total relocation services
- ▶ Warehousing
- ▶ Comprehensive insurance solutions

Our new name, ATLAS, better represents the wide-range of supply chain and logistics solutions that we now offer customers. We may have changed our name, but we haven't changed our firm commitment to serving our customers.

## Our Vision

To become a 'center of excellence', offering the most comprehensive, end-to-end supply chain and logistics solutions in the Middle East.

## Our Mission

To achieve this vision, we will consistently deliver value-driven, customized logistics solutions to our customers, through our highly-trained and motivated teams of experts, investing in state-of-the-art equipment and advanced technologies.

HANDS-ON EXPERTISE

## Project Management

ATLAS has successfully managed large-scale projects and logistics for infrastructure, private and government-related projects in Kuwait, for over 30 years.

With experience across a wide variety of sectors including oil & gas, automotive, military, construction and humanitarian aid, ATLAS has managed prestigious projects for major multi-nationals and international engineering companies.

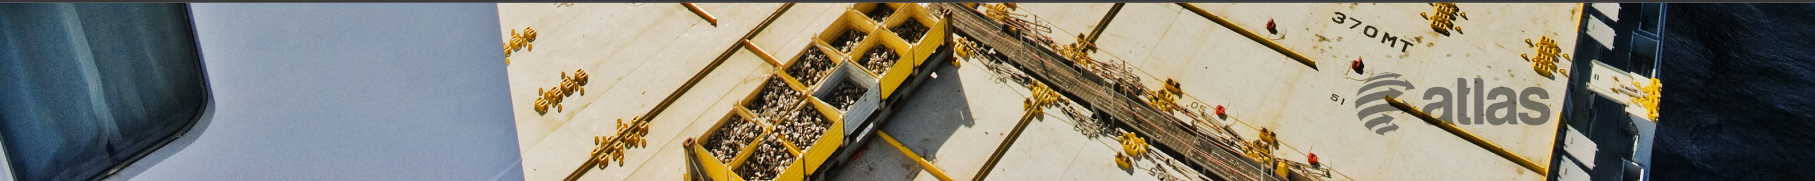

50+ YEARS OF EXPERIENCE

LOGISTIC SOLUTIONS TO

# Freight

## AIR FREIGHT

ATLAS is the leading provider of import-export air cargo management services to multi-national corporations, exporters and importers in Kuwait. In 2015 alone, we handled over 3000 air shipments.

Whether your air cargo is a small package or a full charter load, we offer tailor-made, personalized services designed to meet your specific air freight needs.

## SEA FREIGHT

ATLAS provides extensive sea freight services, working with an international network of high-quality, cost-effective and reliable shipping companies. This comprehensive network allows us to provide tailor-made logistics solutions to suit your cargo shipping needs.

SUIT YOUR FREIGHT NEEDS

# TAILOR-MADE SERVICES FOR

## Land Transportation

The ATLAS team specializes in local and cross-border moves within the Middle East. Our local experience, fit for purpose equipment and advanced technologies are the keys to our success.

Sometimes the most difficult part of moving freight is dealing with intricate and ever-changing customs regulations. Our staff has in-depth knowledge of customs regulations, and years of experience handling transport processes in Kuwait and the Middle East, which ensures the smooth transport of freight every time.

When you transport with ATLAS, you can rest assured that your cargo is safe. As per customers' requirements, we can provide advanced transportation management systems to ensure that your freight is tracked throughout its journey. Using a web-based, real-time tracking system, via mobile GPRS and GSM, we know where your cargo is every step of the way - from the moment it leaves the warehouse until it is safely delivered to its final destination. We also provide comprehensive insurance, as per customers' needs.

# YOUR CARGO NEEDS

OVER 25,000 SHIPMENTS CLEARED ANNUALLY

## Customs Clearance and Delivery

ATLAS' customs clearance and delivery services are simply the best in Kuwait, with over 25,000 shipments cleared annually.

*With more than 50 years of experience in the local market, we have established unparalleled relationships with local customs authorities and a reputation for professionalism and efficiency.*

Our in-house, licensed customs brokers are experts in handling customs requirements for all types of shipments including food, electronics, chemicals, furniture, industrial products and much more.

Whether your freight is inbound or outbound, over land, sea or air, ATLAS will ensure a smooth clearance process and delivery to its end destination.

For inbound freight, we can schedule the delivery of your shipments as per your requirements, using our own state-of-the-art fleet, fully-equipped with tracking and reporting systems. We can also provide temporary storage of your shipments, as needed.

50+ YEARS OF EXPERIENCE

DOOR TO DOOR

## Total Relocation

A proud FIDI member and FAIM accredited company.

*ATLAS is your complete one-stop solution for moving services. With over 30 years of experience in the field, moving with ATLAS means moving with excellence.*

Every year, ATLAS relocates over 1000 customers to their new homes, both within Kuwait and worldwide, with a large team of highly-trained moving professionals and a fleet of 50 trucks.

We can handle all of your requirements, whether local or international, emergency deliveries or storage of household goods, office removals or private moves, air freight, sea cargo or land transport.

## PACKING EXPERTISE

Our team of professional packers and craters works hard to ensure the safety and security of your cargo. We treat your belongings with the greatest care, using a wide variety of high-quality packing materials to suit each move.

Our in-house carpentry workshop specializes in custom-built crates and lift vans to securely pack valuables such as marble tabletops, trophies, expensive lighting, musical instruments (including pianos, fine art and antiques), and over-sized and fragile items.

# FULL DESTINATION SERVICES

COMPLETE SOLUTIONS

## Warehousing and Distribution

ATLAS offers state-of-the-art warehouse facilities and 3PL services that provide clean, secure, temperature-controlled and well-managed storage space.

Whether you need to store personal belongings or commercial goods, our consultants will find the right storage solution for you, at the right price.

ATLAS storage and warehousing solutions are flexible and can accommodate your changing storage needs. Space is reserved as you need it. If you are looking for additional space for seasonal or promotional needs, or want to reduce space during lean periods, we can accommodate these requirements.

***With ATLAS, you only pay for what you use, as you use it.***

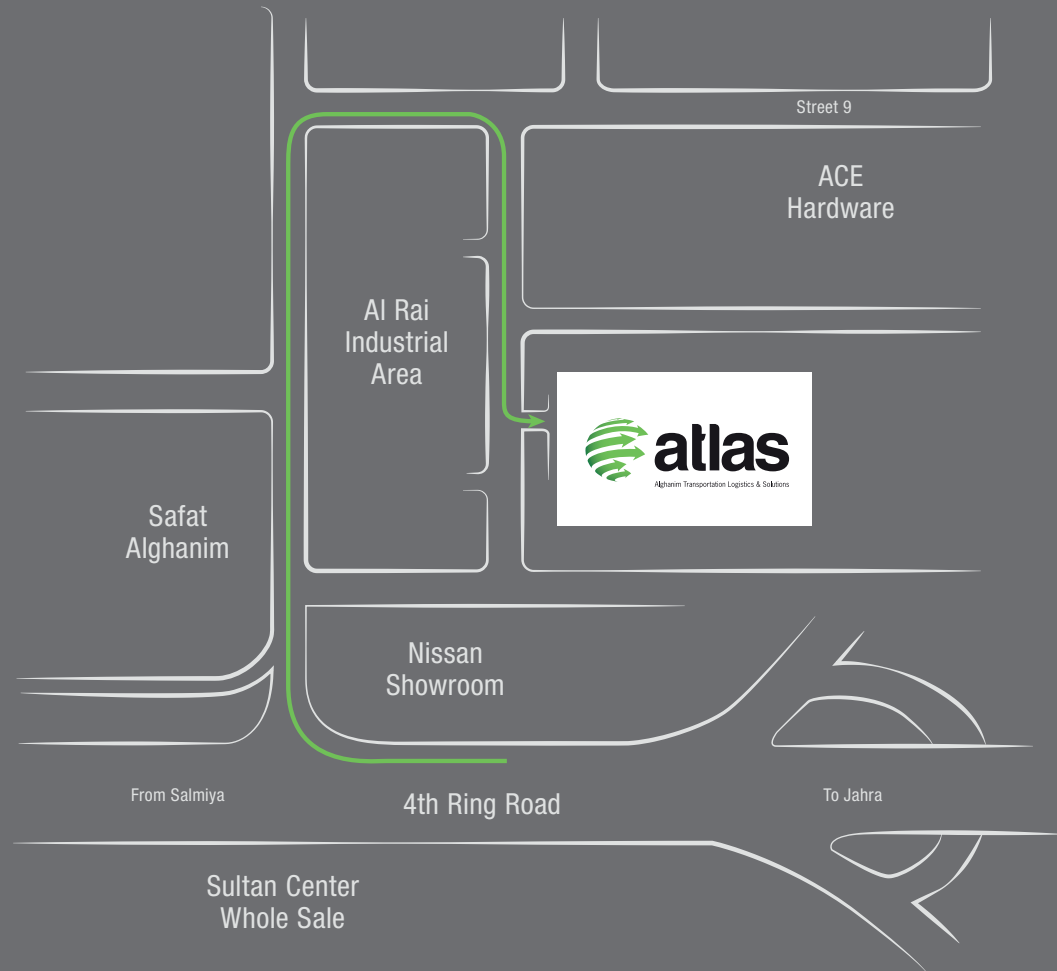

Our facilities are under 24-hour security surveillance, with CCTV coverage. The warehouses comply with all relevant government health and safety requirements, and are managed so as to minimize the environmental impact on the surrounding areas.
